Regenerative Medicine & Pain Solutions

New York Pain Management is the leading regenerative medicine and pain management practice in the Albany, NY Capital Region.

Meet Dr. Gordon

“ I’ve been practicing Pain Management for over 25 years in upstate New York. I invite you to learn more about our regenerative and interventional pain management solutions. Together with my team of experts, we can help restore your health and get you back to reliving your life. – *Charles F. Gordon III, M.D.*

Dr. Gordon understands first-hand what it’s like to have debilitating pain. Pain that interrupts your life causes frustration and depression. Overwhelming pain that keeps you from doing what you love.

At New York Pain Management, Dr. Gordon’s goal is to help you get back to living a better life. He will work with you to restore function, improve health and your well-being and will customize a treatment plan that’s right for you – using regenerative and interventional treatments.

Credentials

- ✓ Board Certified Pain Management
- ✓ Board Certified, American Board of Anesthesiologists
- ✓ ABA Certificate of Added Qualification in Pain Management
- ✓ Regenerative Medicine Specialist
- ✓ Member Interventional Orthobiologics Foundation (IOF)

Restore Your Health

We understand that pain is not only a physical issue, but an emotional one as well. We pride ourselves on our 'hands on' approach that affords each patient the personal time, care & treatment that's needed. We customize your treatment plan to fit your needs, not our schedules!

At New York Pain Management, we utilize the most modern, comprehensive and customizable regenerative and interventional solutions in the Capital Region and North Country at both of our office locations and at our state-of-the-art ambulatory surgery center, Northway Surgery and Pain Center.
