- Tennis Elbow
- Joint Injuries

Learn why professional athletes are taking advantage of this exciting breakthrough in medicine.

Regenerative Injection Therapies are a spectrum of cutting-edge therapeutic techniques that have been shown to treat the causes of painful conditions rather than masking the symptoms. One of the most effective therapies shown to stimulate and accelerate your own body's natural ability to regenerate is **Platelet Rich Plasma (PRP)**. Our clinic uses the highest quality equipment and supplies in the industry provided by Apex Biologix to maximize your results.
